BY COMMAND:

A. R. PATRICK,
Provincial Secretary.

Mr. Speaker entered the Assembly and took the Chair.

His Honour the Honourable the Lieutenant Governor entered the Assembly and took his seat on the Throne.

His Honour then read the following Speech from the Throne:

**MR. SPEAKER AND MEMBERS OF THE
LEGISLATIVE ASSEMBLY:**

To each of you I extend a sincere welcome to this Fourth Session of the Fourteenth Legislature of the Province of Alberta. You are meeting to transact the public business of our province at a time when serious national and international issues are causing many of our people grave concern. We must be mindful of the fact that our future progress and wellbeing inevitably will be affected by these national and international circumstances and therefore you must take cognizance of their implications in arriving at decisions in the field of your provincial responsibilities.

Our people will welcome your leadership to ensure the maximum effort of which we are capable to enhance our nation's influence in all constructive efforts to resolve the causes of international tensions and to advance the cause of world peace.

My Government views with much concern those social and economic trends within our own nation which are resulting in the rapid acceleration of debt and taxation and in excessively high price levels which adversely affect domestic living standards and Canada's competitive position in world markets. Every effort will be made to restrain and reverse these trends at provincial level and to aid our people in preserving the maximum measure of social and economic stability.

During the past year a substantial area of Alberta was seriously affected by the general drought conditions which prevailed throughout the prairie provinces. Notwithstanding serious crop losses in the southeastern areas, over-all agricul-

tural production remained at a reasonably high level and adequate supplies of feed and seed are available to meet all provincial requirements. My Government, in co-operation with the Government of Canada, is providing assistance in the movement of grain and fodder to the drought areas and in augmenting vital water supplies diminished by drought conditions.

A number of recommendations designed to improve and extend agricultural services will be placed before you during the session. These will include a pilot plant for experimental work in the processing, grading and packaging of vegetables produced on irrigated land, the expansion of the performance testing program within the livestock industry, a branch veterinary laboratory to serve the southern part of the province, and measures to improve the control of livestock diseases.

Additional trunk drains in the St. Mary and Milk Rivers Development Project and in the West Block of the Bow River Development will be constructed during the ensuing year together with a preliminary program to survey flooding problems on streams in the northern part of the province.

You will be asked to provide funds to enable my Government to participate under the Federal Government's Agricultural Rehabilitation and Development Act in a number of projects which will be of benefit to our people.

Amendments to The Public Lands Act will be submitted to ratify the recent agreement with the Government of Canada to permit school lands to be administered similarly to other public lands in the province. A survey and study of lake and forest areas, reserved for public use, will be continued to meet growing recreational needs. The modern forest service developed by my Government in recent years will be further extended and improved to ensure the maximum conservation of our forest resources.

To encourage the continued exploration and development of our oil and gas resources, amendments to appropriate statutes will be proposed in keeping with recommendations arising from the comprehensive study of existing legislation and regulations pertaining to the exploration and development and marketing of oil and gas resources as announced at the last regular session of the legislature.

My Government, in co-operation with private industry, has established a pilot plant at the Research Council of Alberta for experimental research in the leaching of iron ore. This project assumes added importance from the substantial deposits of iron ore now established in Alberta and holds promise of an important new era of resources development and industrial expansion.

Enabling legislation to make possible the establishment of the county system of local self-government applicable to urban areas will be submitted for your consideration. Amendments to various statutes affecting municipal administration will be recommended for your approval.

The fourth phase of My Government's Five-Year Development Program, to be undertaken during the ensuing year, will provide facilities for the treatment and education of physically-handicapped children. This program will be designed in its initial stages to provide for the most urgent present needs in this important field and to be capable of progressive expansion to meet future requirements.

Amendments to various statutes to extend and further improve public health services throughout the province will be submitted for your consideration. A new statute will be introduced providing for the establishment of a University of Alberta Hospital Foundation authorized to receive and hold in trust donations and bequests of private or corporate funds to be used to augment teaching and clinical research over and above that which can be financed from the public treasury.

In the field of education you will be asked to approve increased appropriations for the provincewide Foundation Program of School Finance, established at the last session, and to consider amendments to The School Act, including changes and revisions designed to further improve the operation of this program.

Amendments to The School Buildings Assistance Act and The Teachers' Retirement Fund Act also will be submitted for your consideration.

You will be asked to provide funds to complete the construction of homes for senior citizens in Edmonton and Calgary and to provide additional homes in other areas of the province as the need for increased accommodation arises.

In the field of finance, an amendment will be requested to The Alberta Municipal Finance Corporation Act authorizing the corporation to increase its borrowings during the ensuing year sufficiently to provide the essential capital requirements of Alberta municipalities, schools and hospitals.

Amendments to The Rural Telephone Revolving Fund Act designed to further assist in the extension of rural telephone services, will be presented for your approval.

My Government will recommend to you a continuation of its program of modern highway construction, including additional four-lane divided highways supplemented by an extended network of district and local roads, for which substantial provincial grants will be provided.

Your approval will be sought for the construction during the ensuing year of essential public works, including an Institute of Technology at Edmonton, an Education Building and new Library on the University of Alberta campus at Edmonton, and a new Library on the University campus at Calgary. As far as possible construction will be programmed on a 12-month basis in order to provide the maximum measure of employment during the winter months.

Legislation will be introduced providing for the appointment and outlining the duties of a special committee to co-ordinate Alberta's part in the national centennial celebrations in 1967.

My Government is co-operating with the Government of Canada and the Calgary Olympic Association in an effort to have the Winter Olympics held in Alberta at Banff in 1968.

A bill for the establishment of a Racing Commission with power to govern and control horse racing in the province will be submitted for your approval.

You will be asked to consider an amendment to The Alberta Insurance Act that will increase, for financial responsibility purposes, the minimum limits of liability under automobile insurance policies for loss or damage resulting from bodily injury to or death of persons or resulting from damage to property in automobile accidents.

Appropriations will be requested to cover the increased activities of the Emergency Measures Organization program in keeping with the province's responsibility to take all reasonable steps to ensure the welfare of our people in the event of any emergency.

The Public Accounts for the last fiscal year together with the Estimates for the ensuing year will be submitted for your approval.

I leave you now to the business of this session with full confidence that you will discharge your duties and responsibilities in such a manner as to ensure the best interests and wellbeing of all our people. I pray that Divine Providence will guide and bless you in your deliberations.

TUESDAY, FEBRUARY 20, 1962

The Speaker took the Chair at 2:30 o'clock.

The Honourable Mr. Manning paid tribute to Col. John Glenn on the occasion of his historic achievement as follows:

It is fitting that this assembly take cognizance of the tremendous scientific achievement which was accomplished successfully this morning by Col. John Glenn in his historic space flight in which he three times circumnavigated the globe.

This amazing scientific accomplishment is of significance and importance to the entire world.

While the focus of attention is on the courageous man who made the flight, equal tribute should be paid to the hundreds and thousands of scientists and technicians whose labours over many years made this amazing feat possible.

It is equally significant and a tribute to our free society that this historic event was carried out in the spotlight of world-wide observation, which was in striking contrast to similar flights originated behind the iron curtain, which were carried out in official secrecy, with the world denied any information until after the flight was accomplished.

In officially recognizing the great achievement of Col. Glenn, we share the gratitude felt by millions throughout the world that he was able to accomplish his amazing feat successfully.

Messieurs Watkins, Maccagno, and Gainer joined the Hon. Mr. Manning in taking cognizance of the above.

Moved by Mr. Watkins, seconded by Mr. Fleming:

WHEREAS for many years past municipalities and other bodies in Alberta have provided facilities for recreation on Sundays and have collected money towards their cost,

AND WHEREAS it is desirable that the position in law of those who provide and use such facilities should be clearly defined in order that the enforcement of laws should not be brought into public disrepute,

THEREFORE be it resolved that:

1. This Legislature respectfully urges the Parliament of Canada that it is desirable that there be a general review of the provisions and effects of the Lord's Day Act in Canada as a whole:

2. That as an interim measure the Government of Alberta take steps to use the legislative power that it has to permit of activities of an educational and recreational nature on Sunday and of payment towards their cost by those making use of them.

WHEREAS the utmost parental control of educational policy and local autonomy are essential to a democratic society.

THEREFORE BE IT RESOLVED that this Legislative Assembly urge the Government to give consideration to the necessary legislative enactment for the re-establishment of local autonomy in educational policy by the constitution of a locally elected school board for the area served by each school attendance centre and empowering such boards with the authority and responsibility on all matters not absolutely essential to the general administration of the larger unit under the jurisdiction of a divisional board or county council.

Be it further Resolved that consideration be given to enabling the imposition of an additional requisition on the taxation area served by such local board to finance desired requirements over and above that being generally provided by the respective school division or county council.

Whereas some form of parochial school under the influence of a religious institution offers the most practical means of overcoming the limitations for meeting this requirement inherent in the ordinary public school; and

Whereas changed circumstances in school administration and school financing have presented new prohibitions and deterrents for the operation or establishment of such parochial schools.

Therefore be it resolved that this Legislative Assembly urge the Government to give consideration to—

1. The extension of separate school privileges to the area served by centralized school attendance centre and, where desired, to the area comprising a school division or county.

2. The extension, where proper standards are met, of privileges comparable to a separate school to private schools, namely the payment of grants and relief from dual taxation.

The Order of the Day being read for the continued debate on the following motion:

Moved by Mr. Ansley: Seconded by Mr. Watkins:

WHEREAS rural school divisions were established throughout Alberta as a method of providing larger units of administration to enable more highly graded schools and other means towards meeting a policy demand for greater equity in educational facilities; and

WHEREAS the resulting school centralizations and the many powers transferred to the divisional boards have caused almost a complete disappearance of local school boards and, more recently, the current trend of establishing counties causes the elimination of school boards as such; and

WHEREAS the utmost parental control of educational policy and local autonomy are essential to a democratic society.

THEREFORE BE IT RESOLVED that this Legislative Assembly urge the Government to give consideration to the necessary legislative enactment for the re-establishment of local autonomy in educational policy by the constitution of a locally elected school board for the area served by each school attendance centre and empowering such board with the authority and responsibility on all matters not absolutely essential to the general administration of the larger unit under the jurisdiction of a divisional board or county council.

Be it further Resolved that consideration be given to enabling the imposition of an additional requisition on the taxation area served by such local board to finance desired requirements over and above that being generally provided by the respective school division or county council.

THURSDAY, APRIL 5, 1962

The Speaker took the Chair at 2:30 o'clock.

The Order of the Day being read for the continued debate on the following motion:

Moved by Mr. Ansley, seconded by Mr. Watkins:

Whereas the survival of democracy is dependent upon an excellence in education which will enable the individual to use most effectively the mental, moral and physical gifts of a generous Creator and, consequently, requires that our school system should provide the greatest possible measure of inducement and opportunity for the teaching of all subjects of the curriculum in the light of Divine knowledge; and

Whereas some form of parochial school under the influence of a religious institution offers the most practical means of overcoming the limitations for meeting this requirement inherent in the ordinary public school; and

Whereas changed circumstances in school administration and school financing have presented new prohibitions and deterrents for the operation or establishment of such parochial schools.

Therefore be it resolved that this Legislative Assembly urge the Government to give consideration to:

1. The extension of separate school privileges to the area served by a centralized school attendance centre and, where desired, to the area comprising a school division or county.

2. The extension, where proper standards are met, of privileges comparable to a separate school to private schools, namely the payment of grants and relief from dual taxation.

The Order of the Day being read for the continued debate on the following motion:

Moved by Mr. Holowach, seconded by Mr. Strom:

Whereas, in keeping with public concern for the preservation of recognized moral standards and respect for constituted authority, the Government of Alberta for many years has conducted a satisfactory film censorship with adequate safeguards in the public interest, and

Whereas, to be effective, the final decisions of the Alberta Censorship Board must apply to all public showings of films in the Province;

Therefore be it resolved that this Assembly register the strongest possible protest against the recent action of the Canadian Broadcasting Corporation which, in spite of official Government objection, flouted the laws of this Province by showing on Television a film which had been banned by the Censorship Board and Appeal Board;

And be it further resolved that the Government of Alberta be urged to request the Board of Broadcast Governors to adopt such regulations as will require all Television Stations in Canada to comply with the laws of their respective Provinces regarding public film showings.

The Order of the Day being read for the continued debate on the following motion:

Moved by Mr. Watkins, seconded by Mr. Gainer:

Whereas the progressive development and efficient operation of the public utilities in the Province are of the greatest importance to future prosperity;

Now be it therefore resolved that this Assembly puts on record its belief that the existing pattern of ownership of the major public utilities in the Province should be maintained and that no useful purpose would be served by their compulsory acquisition and transfer to any government or municipal department or commission.

To which the following amendment has been proposed:

Moved by Mr. Ludwig, seconded by Mr. Sayers:

That the motion be amended by striking out all the words after the word, "operation", in the preamble and by substituting the following:

"of the industries and public utilities in the Province are of the greatest importance to future prosperity;

"Now be it therefore resolved that This Assembly record its endorsement of the principle of private and corporate ownership of industry, including utility companies, as an integral part of a free enterprise economy and its opposition to the compulsory acquisition of such enterprises by governments or government agencies;

"And be it further resolved that where the public interest is involved, as in the case of public utilities, such interest be adequately protected by appropriate government regulation."

To which the following amendment to the amendment has been proposed:

Moved by Mr. Macagno, seconded by Mr. Ansley:

That the amendment be amended by striking out all the words after the word "agencies" and by substituting the following therefor:

"Be it further resolved that this Assembly affirms its belief that the existing contractual and statutory right of municipalities—to acquire the ownership of the public utilities either by establishing them where they do not exist, or purchasing them when it appears desirable to do so on the expiry of existing franchise periods—provides a useful substitute for competition in ensuring the efficient operation of private monopolies providing public services."

The debate continued.

The amendment being proposed, Mr. Speaker declared the amendment carried.

The Order of the Day being read for the continued debate on the following motion:

Moved by Mr. Fimrite, seconded by Mr. Montgomery:

Whereas, some 15,000 square miles of Wood Buffalo Park is a Federal Park area lying within the borders of the Province of Alberta, and

Whereas, the development of the natural resources within Wood Buffalo Park cannot be carried out under Federal Park Administration, and

Whereas, the original purpose of the Park could still be served by designating the area as a "Buffalo Preserve" under strict game management, while also permitting the orderly development of forest and mineral wealth, for the people of Alberta and the Canadian economy;

Therefore be it resolved that this Legislative Assembly urge the Federal Government to return to the Province of Alberta control and ownership of that portion of Wood Buffalo Park lying within Alberta's borders.

The debate continued.

The motion being proposed, Mr. Speaker declared the motion carried.

Moved by Mr. Fleming, seconded by Mr. Kovach:

Whereas, to be eligible to vote in Federal and Provincial Elections a person must be a Canadian Citizen or British Subject, and

Whereas, it is in the interests of strong Local Government that Citizenship be considered as important to Local Government as it is at the Senior levels of Government, and

Whereas, it is also desirable that Citizenship requirements be uniformly applied as far as possible in all Elections;

Therefore be it resolved that this Assembly request the Government to give consideration to amending The City Act, The Municipal Districts Act, The Town and Village Act and any other related Act to require all Voters in all Elections, Plebiscites and Referendums to be Canadian Citizens or British Subjects.

A debate followed.
